

Sohaib Ayman

Full-Stack Web Developer | React & PHP/Laravel

Zagazig, Egypt | sohaib.a.job@gmail.com | 01282694931 | linkedin.com/sohaib-ayman

CAREER OBJECTIVE

Motivated Computer Science student and aspiring Software Developer with hands-on experience in React, JavaScript, PHP, Laravel, and MySQL. Seeking an internship or entry-level opportunity to apply my technical skills, contribute to real-world projects, and continuously develop my software engineering expertise in a professional environment.

EDUCATION

Zagazig University | *Bachelor of Computer and Information Sciences* Zagazig, Egypt | **2024/10 - Present**

- Cumulative **GPA**: 3.99/4.0
- Building a strong foundation in computer science, including programming, data structures, and software development principles, with a focus on applying knowledge through real-world projects.

SKILLS

- **Software Tools:** Visual Studio, Visual Studio Code, Microsoft SQL Server, Pycharm, Code Blocks, Oracle Database
- **Technical Skills:** C++, C#, Python, HTML, CSS, JS, SQL, REACT, PHP, Laravel
- **Soft Skills:** Problem Solving, Time Management, Teamwork, Self-Learning
- **Languages:** Arabic, English

COURSES & CERTIFICATIONS

National Telecommunication Institute (NTI) | *Full Stack Web Development using PHP* 2026/07 - 2026/08

- Gained hands-on experience in **full-stack web development** through weekly real-world projects, applying practical development and problem-solving skills.
- Worked with **HTML, CSS, JavaScript, PHP, MySQL, and Laravel** to build and integrate complete web applications.
- Developed a **graduation project** as part of a team, applying the skills and practices gained throughout the program.

Information Technology Institute (ITI) | *Full Stack Web Development using PHP* 2026/07 - 2026/08

- Developed full-stack web applications using **HTML, CSS, PHP, MySQL, and Laravel**, applying modern web development practices.
- Gained hands-on experience in **database design, CRUD operations, MVC architecture, authentication, and backend development** using Laravel.
- Built practical projects integrating **frontend interfaces with dynamic PHP/Laravel backends and MySQL databases**.

- Developed responsive web applications using **React, JavaScript, TypeScript, HTML, and CSS**, with reusable components and modern UI practices.
- Gained hands-on experience with **state management, REST APIs, Firebase Authentication, Git/GitHub, and collaborative development**.
- Built practical projects while learning **Node.js, Docker, and Prompt Engineering**, applying modern software development workflows.

Digital Egypt Cubs Initiative (DECI)

2022/07 - 2023/06

- Certificate Awarded
- Gained Exposure to programming fundamentals, digital skills, and early tech experience

PROJECTS

LapStock — Laptop Inventory Management System

- Developed a responsive **PHP/MySQL inventory management system** with CRUD operations for products, categories, brands, and suppliers.
- Implemented **authentication, password hashing, form validation, image uploads, search/filtering, and relational database queries**.
- Built a responsive dashboard using **Bootstrap, custom CSS, and JavaScript**, and collaborated using **Git/GitHub**.

Marketly – React E-Commerce Web Application

- Developed a responsive **e-commerce web application** using **React.js**, implementing reusable components, routing, authentication, and state management.
- Integrated **Firebase Authentication** and external product APIs, with features including product browsing, categories, search, dark mode, and shopping cart functionality.
- Collaborated using **Git/GitHub** and applied modern frontend development practices to deliver a complete team-based project.

ARSHA – Responsive Landing Page Recreation

- Recreated the **ARSHA landing page** using **HTML, CSS, and Bootstrap**, closely matching the original design, layout, and visual components.
- Built a **fully responsive** homepage that adapts seamlessly across desktop, tablet, and mobile screen sizes.
- Implemented reusable **Bootstrap components, responsive layouts, navigation, sections, and UI elements** to replicate the original user experience.
